

BLACK TERROR STALKS LONDON BOROUGH

Bestial rapes and muggings make life intolerable for local people

THE LONDON EAST END Borough of Hackney, which has a larger proportion of non-whites among its population than any other London borough, is afflicted with a wave of vicious crime originating, from what appears in local crime reports, to a wholly disproportionate extent among its black element.

These crimes have been committed without the slightest regard for the age or sex of the victims, spreading an alien atmosphere of terror throughout what was once a decent British community.

Among the most atrocious examples of this black savagery to be reported in recent months are the following:

- On Friday morning, 28th September, two armed 'youths', racial identity omitted in newspaper reports but revealed in Identikit pictures, burst into the flat of a 25-year old Hackney woman as she was making breakfast. The woman was grabbed and threatened with a knife, bound and gagged with her own clothes, dragged to her bedroom and savagely raped.

- At the end of September an attacker, described as black, in his 40s and about six feet tall, pounced on a 75-year old woman and robbed her as she walked home with her shopping. Mrs Daisy Challis of Moreton Close, Clapton,

had reached the stairs to her own home when the mugger ambushed her, broke her wrist and escaped with her money and shopping. This is the second time that Mrs Challis has been attacked in her home neighbourhood and she is now said by her son to be "very frightened ... too scared to go outdoors and virtually a prisoner in her own home."

Labour-controlled Hackney Council, run by left-wing lunatics and degenerates and notorious for its coddling of 'ethnic minorities' and queers with huge grants of ratepayers' money, says that it would be too expensive to give immediate financial assistance for the protection of British old folk such as Mrs Challis by providing safe and decent housing.

- In early October, a robber described as black, aged 20, burst into a Stoke Newington flat where a woman was babysitting for a friend, hit her over the head with the handle of a knife and stole her bag and money.

- Three Clapton women were subjected to a maniacal meat-cleaver attack by a muscular young black in his twenties on a Saturday morning during the last few days of September. One of the women was slashed across the throat and forehead, the second had her skull fractured and cuts on her arm, and the third needed eleven stitches to her wrist.

The attacker had assumed the three women to be prostitutes and had propositioned them with obscene remarks. When they ignored him he

Wanted

THESE are the photofit pictures of two men police want in connection with the rape of a 30-year-old woman in Spreditch.

The attack happened shortly after midnight on November 1 when the men pounced on their victim as she walked along Buxton Street, threatened her with a knife, dragged her into a nearby garden and raped her.

Anyone who thinks they can identify these men is asked to phone Bethnal Green police on 488 5381.

tried to butcher them with the meat cleaver. When his victims had fled into a local estate in their efforts to escape, and thought themselves safe, he suddenly pounced on them, picked up a brick and hit one of them on the head, fracturing her skull.

The women were subsequently too terrified to allow their names to be published.

- Two vicious thugs, of whom at least one is shown in a police Identikit picture to be black (*The Hackney Gazette* news report is evasive in its descriptions and carefully omits mention of racial identities) went on a rampage in a Dalston tower block during lunchtime on Friday, October 4th. The two savages raped a 33-year old woman at knife-point and threatened a young mother and her baby with scissors after kicking in the doors of two flats in succession.

Their first victim was a 22-year old

woman, at home with her eight month old son. The woman was threatened with a knife and robbed of her jewellery. When she attempted to call for help they threatened her baby with scissors.

They then broke down the door of the flat opposite and started to ransack it but were surprised by the 33-year old woman living there when she returned from work. The two sub-humans dragged her into a bedroom and took it in turns to rape her before grabbing her jewellery. Finally they broke into a third flat next door and stole £700 in cash.

Police described the two animals as "evil, inhuman monsters who showed a total disregard for human decency." One inspector remarked, "I've investigated many horrific cases but I've never seen victims so terrified and devastated."

- In October an off-duty policeman needed eleven stitches in his face after

being clubbed with a chair leg by two West Indian half-castes while walking his girlfriend home.

P.C. Donald Nolan and his girlfriend were followed down the street by two blacks. When P.C. Nolan turned round and told them to go away he was smashed over one eye with the chair leg.

According to the police officer investigating the case, the attack was motiveless. No money was demanded. In the words of the same investigating officer, "The attackers do not seem to have known their victim, or to have known that he was a policeman."

The question arises from this statement whether the police now accept that their officers are a natural target for black violence, and that matters have reached the stage where membership of the police force in itself provides a sufficient motive for black attacks on an individual.

- A young mother was forced to hand over her jewellery as a mugger, described as a West Indian, held her child at knife-point. The black thug attacked her as she walked along a landing in York Way, Islington with her two children, aged 5 and 7, and a baby in a pushchair. When he failed to snatch her necklace he thrust a knife at the throat of the 5-year old and threatened to kill her unless the mother handed over her gold chain.

From fear, the mother subsequently asked not to be named.

- A hooded sex-fiend, described by police as black and heavily-built, attempted to rape a 76-year old woman after breaking into her home one morning in late October. After ransacking her flat and stealing her cash and property, he grabbed the frail old age

PAIR STILL HUNTED FOR KNIFEPOINT RAPE

POLICE have issued these photo-fit pictures of two youths who raped a Hackney woman at knife-point.

The 25-year-old victim was attacked as she made breakfast at her home in Amhurst Road. The two youths burst through the front door, grabbed the woman and threatened her with a knife.

Then they bound and gagged her with her own clothes before dragging her to a bedroom and raping her.

Police have been hunting the youths since the attack on September 21. Both are aged 16-20 and anyone who may have seen them in the area should contact Hackney CID, telephone 488 7111.

SOUTH AFRICA SHOWS THE WAY

PREDICTABLY, the resolute methods used by the South African police and security forces in their country to put down black rioters and restore order have been met with hysterical denunciations from our own anti-white, pro-black 'liberal' mass media. Establishment politicians of all major parties at Westminster have not been slow to join this chorus of putrid humbug.

The snivelling decadence of Britain's present rulers is only emphasised when the scale of our own racial problem is remembered and it is recalled how the repeated rampages of black savages in the streets of British cities have been met, by the present government and 'Liberal Democratic' ruling establishment, with puny cowardice and appeasement. And this is not to mention the feeble attitude of tolerance towards the vicious terrorist murders of the IRA, who have been coddled, cosseted and appeased by one government after another, Tory and Labour alike, all of them possessed by a mentality of surrender and betrayal, whether in Brixton or Belfast.

A mob of black riots in one of our cities and they are immediately rewarded with huge free gifts of taxpayers' money for 'recreation centres' and the like, 'reverse discrimination' to promote them into jobs they do not merit, at the expense of productive whites, the evident placing of our unarmed and ill-equipped police force virtually under orders from the government to let black criminals in our big cities get away with near-murder.

British weakness

The vicious revolutionary subversives and terrorists of the IRA shoot, bomb and stir up mob mayhem in Ulster and our politicians react by seeking the least embarrassing means (to themselves) of handing over to these elements everything they want whilst in the process, defrauding and betraying the British people. Thus Mrs Thatcher slithers off to Eire to discuss with the Prime Minister of that foreign state the most effective way of striking the loyal majority of this British province into a united Ireland.

Such slimey treachery against our kinsfolk for the benefit of our enemies compares ill with South Africa's attitude of determined self-defence.

In South Africa subversion and disorder are being met by tough and realistic measures. The South Africans have always known that as a small, racially superior minority surrounded by a vast mass of inferiors they have a great deal to lose, and having lost once would have lost for all time. Facing these realities they have always used appropriate methods to protect their white civilisation. Their large, properly armed and organised police and military, made up of tough, determined, self-disciplined, patriotically and racially minded white men, have always been more than a match for the savagery of the primitive rabble, as well as the subversive and terrorist communist elements which aim to stir it up.

In fact, South Africa's problem is that facing all whites throughout the world. It should be the aim of Britain's rulers to adopt, not to denounce, this attitude of racial and national self-defence.

pensioner, dragged her to the floor, and tried to rape her. His attempt was unsuccessful and he fled after indecently assaulting his victim.

Police are investigating this vicious assault to see if it ties in with other similar offences in the area.

● Police Identikit pictures have been issued of two rapists who attacked a 30-year old woman in a Shoreditch street just after midnight on the night of 1st-2nd November. The victim was ambushed as she walked along Buxton Street, threatened with a knife, dragged into a nearby garden and raped.

The police pictures were only published three weeks after the rape. For reasons no doubt connected with 'race relations', no descriptions of the racial identity of the rapists was issued in the meantime. Their swift and efficient capture through the rapid publication of accurate descriptions seems to have been considered of secondary importance.

● In mid-November a 21-year old girl computer operator was savagely attacked by two muggers in Hackney Road, who ripped an earring from her ear. One of her attackers is described as a 6'3" Rastafarian with dreadlocks and a woolly hat, about 25 years of age. The two muggers leapt at the girl from behind the wall of a deserted car park and dragged her from the footpath. They then grabbed her around the neck, punched her in the face and kicked her in the leg before tearing her earring, chain and handbag from her.

● A few days before Christmas, a 74-year old widow was threatened with a screwdriver and forced to hand over a ring belonging to her late husband by a black burglar who broke into her Hackney flat in the early morning. The woman, who for her own safety was not named, was woken by the sound of an intruder rummaging through her belongings. When she went to investigate, she surprised the black thug, who held a screwdriver to her throat and stole her ring.

● In early January, a 23-year old woman from New Zealand was brutally raped at knifepoint by a black intruder who broke into her bedroom at the house in Upper Clapton where she was staying. The victim was woken from her sleep, threatened with a bread-knife which her attacker had taken from the kitchen and blindfolded with a piece of her own clothing before being raped.

The savage responsible then fled after stealing £5.

This sample of crimes committed by black criminals over a short period of a few months in one relatively small area is a pointer to what can be expected, both now and in the future, in a multi-racial Britain. A 'third world' population has been quite deliberately introduced in vast numbers into a previously racially homogeneous white community.

Whole categories of crime have appeared on our streets, disproportionately committed by blacks which would have been utterly unthinkable 30 or 40 years ago. Now sexual assaults on women in their seventies and attacks on children in their prams with knives and razors, if reported at all, are carefully restricted to the inside pages of local newspapers by the masters of the media in a conspiracy of silence where truth takes second place to 'race' relations.

Meanwhile the hypocritical and tyrannical Liberal Democratic

British Nationalist, though it believes in racial differences, opposes race-hatred. All those who oppose multi-racialism should attack the politicians who promote it, not the immigrants, who are merely its victims.

Face of the meat-cleaver attacker

HACKNEY police have issued this photo-fit of the man wanted for a savage meat-cleaver attack on three Clapton women at the end of September.

He is a clean-shaven, well-built black man of about 25, height 5ft 7ins to 5ft 10ins, with short hair.

The women were attacked in Clarence Road after the man propositioned them in Mare Street. When they rejected his advances he pulled out the hatchet and

they suffered serious injuries to their heads, arms and faces in a running battle between Clarence Road and the Pembury Estate.

Any information should be given to Hackney police on 488 7111.

politicians, whatever their party label, try to enforce submission to their multi-racialist policies by means of their totalitarian Race Relations Acts, whose purpose is to silence any white voice of protest in order to make the great lie of multi-racialism stick. In reality it has always been inevitable that multi-racialism would mean the displacement of white man's law and order by the alien nightmare of third world style chaos.

All the time, under the established 'Liberal Democratic' political system (whatever the party in

power at Westminster), the parasitical little communist maggots of the left continue to thrive, whether operating under the banners of the Labour Party or of the various left-wing gangster organisations. These vermin, many of them MPs and local councillors, set themselves up as friends of the blacks because they see their opportunity of bringing about communist revolution as coming from the vast masses of these aliens in our midst. Black violence is the means which they hope will open up the way for them by disrupting the white

British community they wish to overthrow.

It is not too much to describe this process as a conspiracy of the ruling establishment of Westminster and Whitehall, the mass media and communist revolutionaries to hold the whites down by lies and alien terror. The order and prosperity of white society are being smashed up. As the violence is stepped up, potentially to large-scale murder, the British people must face up to the possibility, if they do not resist while they still can, of becoming the victims of piecemeal genocide.

Their first victim, a 22-year-old woman, was at home with her eight-month-old son, when the men kicked in her front door. They burst in and threatened her with a knife before stealing £3,000 of jewellery.

The men locked her in the flat, but she escaped and called for help to some builders working nearby. But they did not hear her and one of the attackers threatened to harm her baby with scissors.

Then they broke down the door of the flat opposite and began to ran-

sack it. But they were surprised by the 33-year-old woman who lives there when she returned home from work.

The men dragged her into a bedroom and both raped her, then grabbed £550 of jewellery before they left.

Finally, they broke into a third flat next door and stole £700 cash.

Detective Inspector Paul Brennan said: 'These men showed a total disregard for human decency. I've investigated many horrific cases, but I've never seen victims so terrified and devastated.'

'This attack was so cold and cal-

culated that I'm worried this pair will strike again. They must be caught as soon as possible. They are a danger to society.'

Police have issued a photofit picture of one of the men. He was aged 22-23, 5 ft. 9 in. tall and of medium build. He wore a green or khaki bomber jacket and jeans.

His accomplice was aged 19-20, around 5 ft. 11 in. tall and of slimmer build.

Anyone who saw them around Midway Street around lunchtime on October 4, should contact Det. Insp. Brennan or W.Det. Con. Julie Proctor at Highbury Vale, telephone 226 1113.

HOW TO FIGHT BACK

THE BRITISH PEOPLE are having their country taken from them by alien intruders, with the assistance of the political parties in power at Westminster and throughout Britain. The corrupt politicians of these parties are interested only in getting the spoils of office for themselves by setting one group of Britons at the throats of another (as in the case of the miners' strike, where Tory and Labour politicians and media worked their respective supporters into frenzies of mindless hatred against one another), whilst crawling for the 'ethnic' votes of Asians and blacks Mrs Thatcher grovels for Asian money and votes,

whilst blacks are encouraged to demand that Labour hand over winnable seats to black candidates.

Blacks are given political power, whilst whites are systematically divided among themselves and deprived of political power.

What is needed is a militant white people's movement that can unite the British people and organize them for a fight-back to recover political power in their own country and prevent their dispossession and their own and their children's ultimate ruin. Establishment politicians, whether Labour, Tory or SDP/Liberal Alliance, are multi-racialist traitors, grabbing political

advantages for themselves whilst promoting blacks, Asians and other aliens at the expense of the whites.

Only the British National Party has the outlook and promotes the qualities within its ranks to unify the British people for the necessary white man's revolution.

All Britons should remember, as their Tory, Labour and Alliance politicians turn third world immigrants into spoilt nuns living at their expense, that Britain can live forever without blacks, Pakistanis, Chinese, Jews, etc. It cannot exist at all without the great white British race that created it in the first place.

FOR SOME TIME the Board of Deputies of British Jews, the representative body of Jewry in Britain, has sought the tightening up of the anti-white Race Relations Act. Now one of the Board's leading officials, Jacob Gewirtz, is calling for legislation outlawing research which exposes as false Jewish claims of having suffered a 'holocaust' in the Second World War involving the deaths in so-called 'gas chambers' of some millions of Jews.

Canadian publisher Ernst Zundel was recently sentenced to 15 months imprisonment in his own country in a test case of just such legislation. Canada's 'anti-hate law', supported and promoted in the first place by Jewish bodies (as was the case with Britain's Race Relations Acts), makes it a crime 'knowingly' to distribute 'false' information likely to stir up feeling against ethnic minorities. The same Jewish pressure groups want to make even unintentional distribution of 'false news' punishable with an increased penalty of five years' jail.

Mr Zundel was hauled before a court for publishing a booklet entitled *Did Six Million Really Die?* which shows the 'holocaust' story to be a hoax, and part of a Zionist conspiracy to extract 'reparations' from Germany by portraying Jews as a poor, persecuted minority whom white gentiles owe a living.

Jews try to crush free speech in Canada

JAIL SENTENCE FOR MAN WHO DARED QUESTION 'HOLOCAUST'

During the course of the trial Mr Zundel's brilliant defence lawyer, Mr Doug Christie, was able to turn the proceedings into an exposure of both the 'holocaust' story and its promoters. Much-touted Jewish holocaust 'expert', Dr Raul Hilberg, had to concede that in fact no scientific evidence for the famed Nazi 'gas chamber executions' exists at all!

'WITNESSES' TRIPPED UP

'Holocaust survivors', paraded by organized Jewry on the witness stand, were shown by Mr Christie to have lied in claiming to have witnessed gassings of Jews. One of these, Professor Rudolf Vrba, who has also set himself up as an 'expert', was forced to admit that he never witnessed any gassings, and that his

book about Auschwitz is "only an artistic picture" whose descriptions of gas chambers in the camp are based on "what I heard they might look like."

These admissions totally vindicate what Mr Zundel has said and done. His imprisonment demonstrates clearly the extremes of vicious tyranny against their own citizens that 'democratic' states will undertake at the command of their Jewish minorities. In a sane world of genuine freedom and truth it is the likes of Hilberg and Vrba who should be liable for penalties. It is they who have spread false news, defaming and stirring up hatred against white gentiles.

Meanwhile, as the curtain-raiser to the introduction of similar laws in Britain, Simon Wiesenthal, the Austrian Jew involved in pressuring Western governments to prose-

cute or expel any individual whom he claims were "Nazi war criminals", is shortly coming to London to

launch a propaganda film about the 'holocaust'. Dr Bruno Kreisky, former Chancellor of Austria and himself Jewish, has described Wiesenthal as "not too careful with the truth". Kreisky has further said of the 'holocaust', "It is time that these stories from long ago came to an end."

It is reported that the West End premiere of the Wiesenthal film will be attended by many notable political and religious figures. It appears that Britain's 'Liberal-Democratic' establishment is about to display its usual odious complicity in alien lies and tyranny.

"GIVE ME A CAR", CONVICTED BLACK TELLS JUDGE.

BY NOW we have got well used to Britain's goofy 'liberal' judges and magistrates who treat coloured offenders in the courts with a leniency bordering on the ridiculous. But surely first prize for this year goes to Judge Argyle, who presided over a case at the Old Bailey in March involving Everton Samuels, a rastafarian, who was found guilty on a drugs charge. The judge deferred sentence for seven days to give Samuels time to find a job, even giving up his own lunch hour at the court to telephone an electronics company to negotiate a job there for him at £135 a week.

Samuels, however, was not grateful to the judge for this favour. He objected to the job because it would have involved him travelling eight miles to work each

This was too much even for Judge Argyle and the car was not forthcoming. Nevertheless, Samuels still walked out of the court a free man shortly afterwards - he was given a suspended sentence of nine months.

Judge Argyle did not let him get away with this without a rap over the knuckles. In concluding the case, he said to Samuels: "Your attitude has done your own people little good. The court has received a number of messages from Fascists and racists. Your manner merely feeds the prejudice of those people who think that any person who is coloured is automatically unfit to be a member of their society."

To which the reply might be given to the judge: "And your treatment of this case merely feeds the prejudice of people who think that criminals who come up in court, provided they are black and unemployed, can get away with murder!"

LONDON'S DARKENING FACE

RECENT STATISTICS concerning the racial make-up of London schoolchildren make interesting, and frightening, reading.

In a report issued by the Inner London Education Authority it was stated that in a 1983 count of pupils at primary schools 59 per-cent were found to be white, 15 per-cent black, 8.5 per-cent Asian and 16.7 per-cent of other races.

By 1985 - only 2 years later - the figures had changed to: 55.9 per-cent white, 15.7 per-cent black, 11.1 per-cent Asian and 17.1 per-cent other races.

In other words, the proportion of white children in these schools dec-

reased by as much as 3.1 per-cent in only 2 years!

Just project that decrease into the longer term future, and you will see the threat to London's white people. At the same rate, in 10 years the proportion of Whites would have fallen by a further 15.5 per-cent - making Whites only 40.4 per-cent of the total, and in 20 years there would be a 31 per-cent decline, reducing white children to only 24 per-cent!

This is the kind of London being prepared for us by the multi-racialists with their deliberate encouragement of immigration, high breeding among immigrant families and a low birth-rate among Whites.

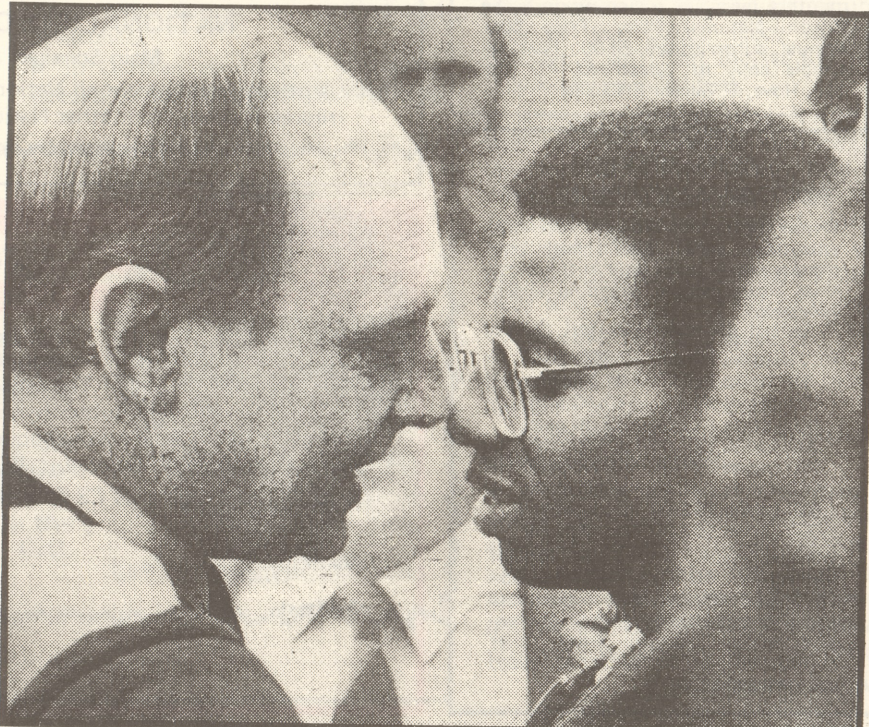

THINK OF A CAPTION!

IS NEIL KINNOCK becoming a 'racialist'? One could be forgiven thinking so from the picture underneath here, which shows him in a nose-to-nose confrontation with a black youth and obviously in the process of saying something unfriendly. The scene in fact took place when the Labour leader was visiting Haringey College in North London and the youth threw a tomato at him. Kinnock immediately squared up to his assailant, grabbed him by the lapels and made threatening noises to him.

All sorts of captions came to mind when we saw the photo in the papers the next day. Here are a few of them:-

- (1) "Now, now Neil, no racist thoughts!"
- (2) "If I didn't have to think of the black vote, I'd spread you across the pavement!"
- (3) "You black b.....d! - I beg your pardon, I mean you misunderstood member of our ethnic minorities!"
- (4) "Careful Neil, he could be chosen as a parliamentary candidate and you might have to speak in support of him!"

Can you improve on any of these? Write in and give us your ideas and we will give a citation in the next or next but one issue for the best idea.

YOUR LETTERS

SIR: I cannot more readily agree to the British National party's pledge to support the Republic of South Africa. It was British interference in a relatively stable Rhodesia, at that stage on the verge of winning the 'Bush War' against terrorism, that turned that country into the one-party black-ruled Marxist state currently engaged in a policy of genocide against its political opponents.

The South African government faces daily demonstrations, sporting boycotts and threats of economic sanctions, and is being generally snubbed by its so-called 'Western allies'. We can only thank our lucky stars that they have stuck to their anti-communist commitment and a policy of not assisting or permitting terrorists to operate in any form from within the borders of the Republic.

The temptation to 'get back' at us British by supporting the IRA or naming streets and buildings after prominent IRA terrorists must be strong considering the British people are seen to support and harbour organisations such as the ANC, PAC and SWAPO, and give a continuous voicing to the 'free Mandela' campaign - a tried and sentenced terrorist who is dedicated to the overthrow of their government by violence and terror tactics experienced by our troops in Northern Ireland.

It is most fortunate for us that the South Africans react by acting on their principles rather than their emotions, and continue to condemn the activities of the IRA as being opposed to the democratic and judicial order, which we as Western aligned nations are supposed to uphold.

Our shame lies in the fact that we, the champions of 'democracy' in the free world, are guilty of hypocrisy. We should no more interfere in the affairs of sovereign states overseas than we would expect others to interfere in our internal matters.

It lies with parties dedicated to voicing the truth to campaign actively against radicals within our own society. I wish you success in your campaign, for the sake of a better Britain, and indeed - the world.

HUGE IMPACT MADE IN BRADFORD

THE BRITISH NATIONAL PARTY has made a massive public impact in the Bradford area over recent weeks in the course of its campaign for a seat in Bradford District 6 of the West Yorkshire Metropolitan County Council. Eventually the BNP, in a four-cornered contest involving also Conservative, Labour and

Liberal candidates, won 405 votes out of a total of 9,974 (4.1 per cent of the poll).

Highlight of the campaign was a public rally staged on April 13th by the party in Bradford. An attempt was made by local left-wingers and immigrant groups to stop the rally by force but this

failed. Eventually, after order had been restored following violence from the left and the immigrants, the rally was brought to a premature end by the police after a request from a local council representative that it be closed. The BNP, however, emerged victorious from the day's events. Though a small number of members of the general public were prevented from hearing most of candidate Stanley Clayton-Garnett's speech and all of party leader John Tyndall's speech, scheduled to follow, many thousands read about the event in the local press and heard about it on local radio, and the party

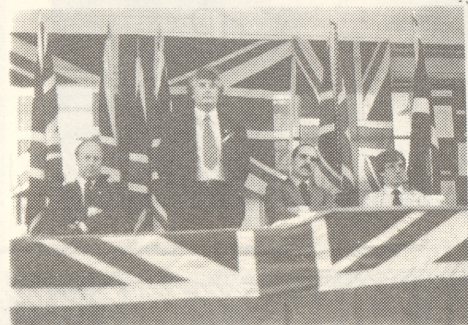

won enormous local sympathy through the way it had been treated by the Council and the violent tactics used against it by its opponents.

As a result of these events, following on from the events of last year, the British National Party is now a household name in the Bradford area. In addition to local publicity, the Bradford rally was mentioned on LBC and national radio networks and in some national papers.

Leeds BNP campaigns for Ark Royal

LEEDS BRANCH of the BNP has made big local news recently with a petition organised in support of the adoption by the City Council of the newly commissioned Ark Royal aircraft carrier. The Council has had a tradition of adoption of carriers bearing this famous name ever since World War II but in the case of the latest carrier a majority on the Labour-controlled body is against any such adoption. This has caused widespread anger among ex-servicemen in Leeds and the BNP petition, promoted by Organiser David Owens, has received considerable support and publicity. The BNP is always in the forefront where defence of the great traditions of Britain's armed services is called for.

THE BRADFORD VOTE

THE BRADFORD AREA has never been a rewarding one in the way of votes for Nationalist parties, and it is in this context that BNP candidate Stanley Clayton-Garnett's poll of 405 votes (4.1 per cent of the total) must be viewed. The vote, though not large, was much better than previous votes won by Nationalists in the area and compares very favourably with any results achieved by Nationalists in similar sized areas in the 1980s.

District 6 of Bradford is the size of a smaller constituency, having an electorate of approximately 35,000, and so the BNP result there has to be compared with results obtained in constituency-size areas rather than the much smaller ward-size areas in which elections in town and city councils are fought. The best result achieved by any Nationalist candidate in the General Election of 1983 was the National Front vote in Newham South: 3.7 per cent of the poll. The Newham area of London has always been much more favourable terrain than Bradford, yet Stanley Clayton-Garnett scored appreciably higher in Bradford District 6 than the NF candidate in Newham.

This result was obtained by the work of a very tiny active team — since Bradford BNP is thin on the ground in the way of activists. Stanley Clayton-Garnett and his co-workers must be congratulated on what was in the circumstances a very good effort and something which demonstrates the high long-term electoral potential of the BNP.

THE ST. GEORGE'S DAY RALLY staged by the British National Party in Leicester was a huge success. A packed hall resulted from the advertising of the rally. A large mob of left-wingers tried to stop the rally by persistently shouting down the speakers, and when stewards moved in to get them ejected a full-scale riot occurred, with the hall looking like a battlefield for a few minutes. Eventually the worst interrupters were thrown out and order was restored.

The rally and disturbance made news headlines on several local radio stations, including LBC, and also on national news on Radio 2 and Radio 4. In addition, a report was printed in *The Mail on Sunday* and *The Sunday Telegraph*.
